Bank Details

Bank Name	testbanker
-----------	------------

Note- Required details can only be provided once Merchant is successfully onboarded. For new Merchant onboarding, click the **Sign-up** button and follow the prompts.

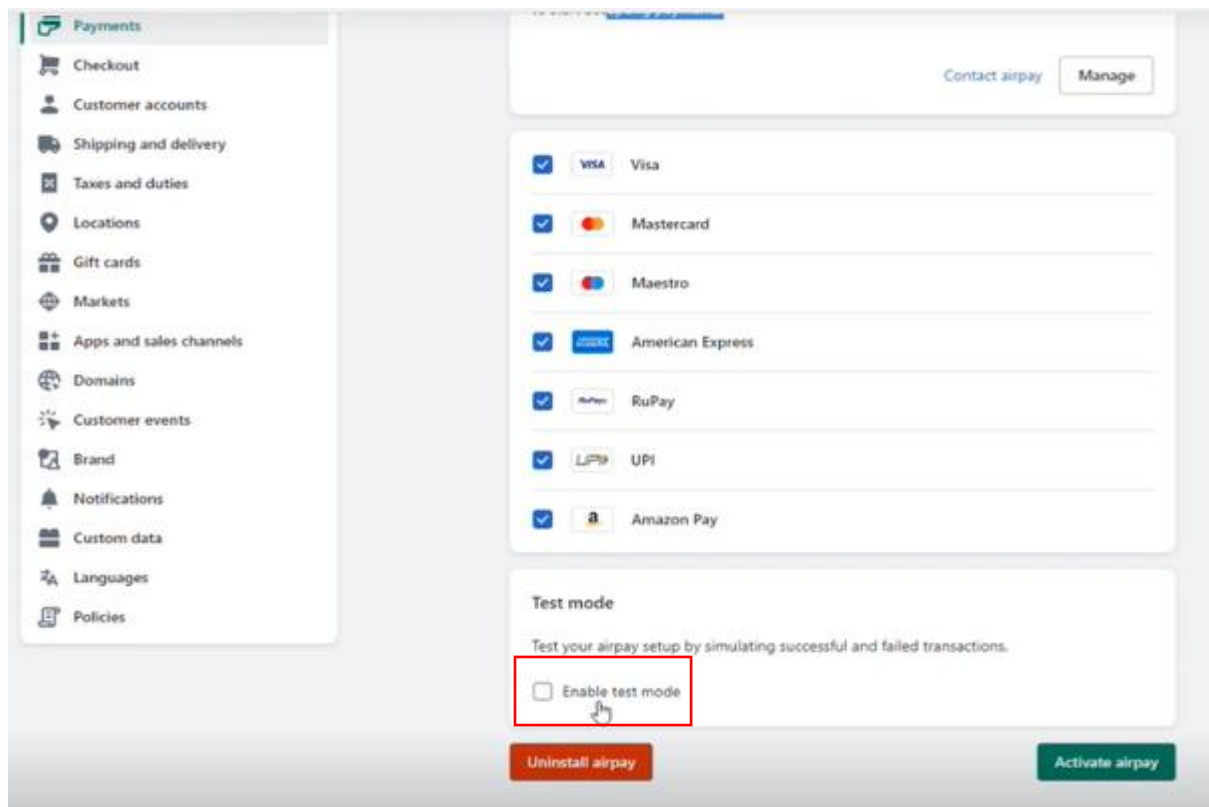

The image shows the Airpay login interface. On the left, there's a promotional banner with the Airpay logo and the text "Grow your business and increase your average ticket size". Below this, it says "airpay is india's first integrated omnichannel financial services platform". There are two call-to-action buttons: "Card EMI/ Pay Later" and "Easy Integration". On the right, there's a "Login" section with two input fields: "Merchant ID *" with the value "19014" and "Secret Key *" with the value "sbeT39Ctjm5i4WAN". Below these fields is a "Submit" button, which is highlighted with a red box. At the bottom of the login section, there's a link that says "Dont have an account? [Sign Up here](#)".

- Click on **Authorize**.

The image shows the Airpay authorization interface. At the top, there's a banner that says "Integrate your merchant account with Shopify" and "airpay will be allowed to accept payments". Below this, there's an illustration of a hand holding a smartphone with a payment app. To the right of the illustration, there's a section titled "Accept Payments" with the text "Manage orders, webhooks and other essential resources for accepting payments on your ecommerce store." At the bottom of the page, there's a small disclaimer: "You may be sharing confidential information with this website or app. Read airpay's terms of service and privacy policies to see how the company will handle your personal information. Access can always be viewed or removed from your account." Below the disclaimer is an "Authorise" button, which is highlighted with a red box.

- Click **Activate Airpay** to start accepting payments.

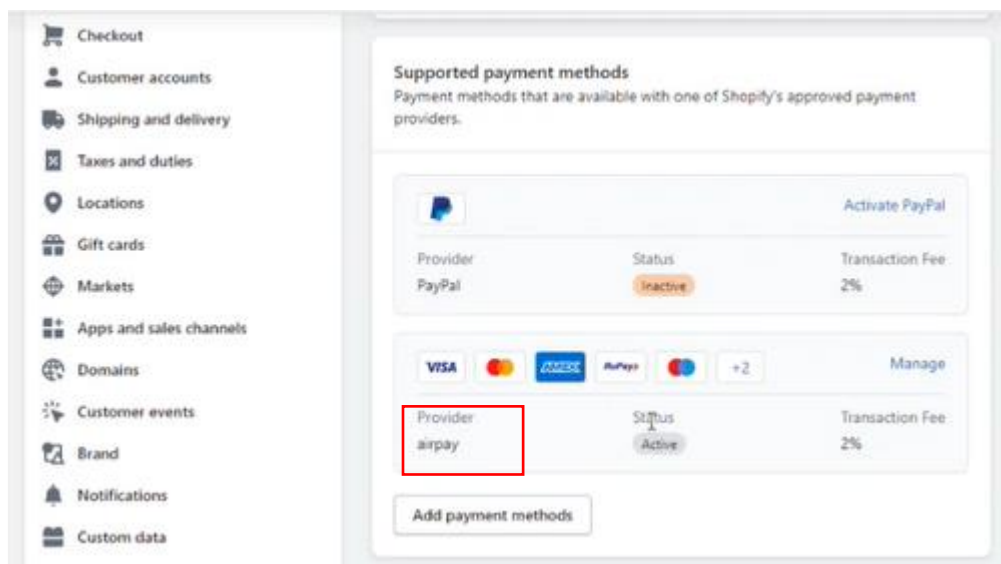

Note: Newly onboarded Merchant can perform test transactions on sandbox mode instead of making actual payments till their MID is activated and live.

Note – In order to perform the transaction in the **test mode**, the check box against **Enable test mode** should be checked as shown in the above screenshot.

However, to perform the actual transaction, the user needs to uncheck the **Enable test mode**.

- Airpay is successfully activated for the store.

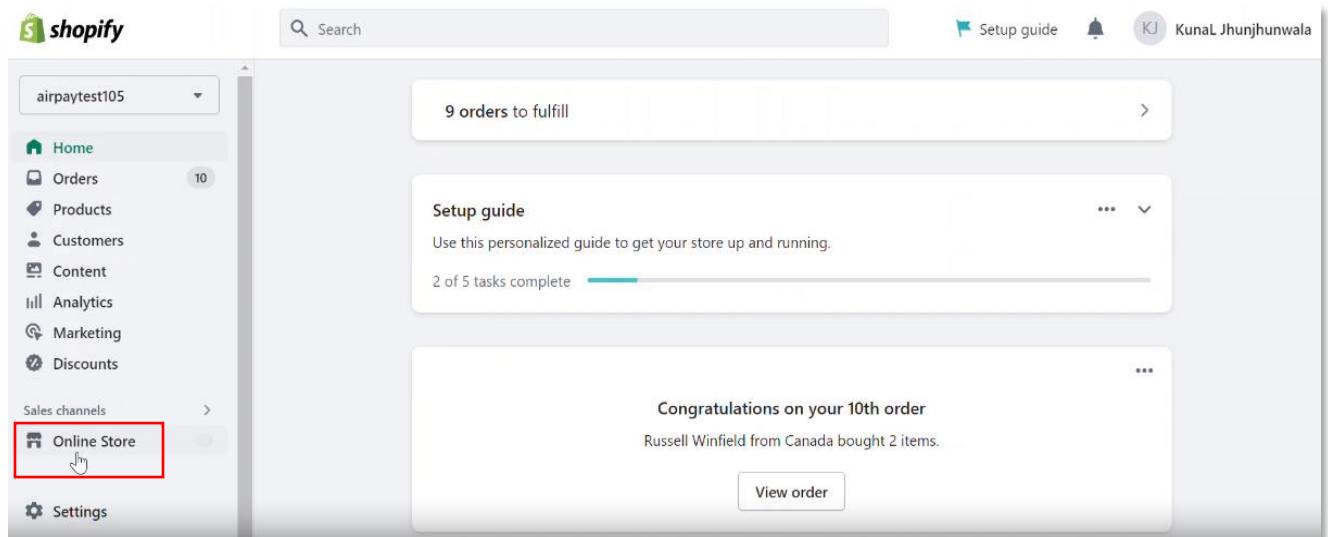

- Enter Store URL and perform the test transaction.

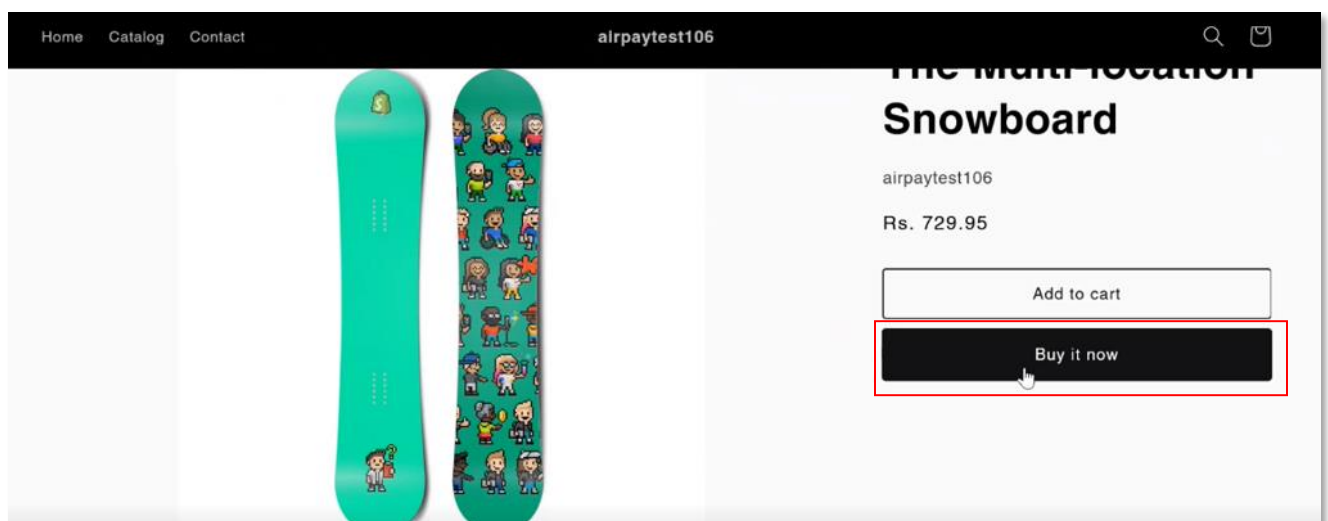

Note – If the test transaction mode is disabled then the user gets charged for actual transaction.

TRANSACTION FLOW ON SHOPIFY

- Click **Online Store** from the left side menus.

- Click **Buy it now**.

- Enter the details and click **Continue to Shipping**.
