

About:

This file is a technical guide for integration of merchant backend with AIRPAY. Please refer to below guidelines for integration

A. Instructions:

You need to provide your Success Url to airpay operations team (ops@airpay.co.in). The URL will be like

http://www.yourdomain.com/airpay_response/page Please provide right domain in place www.yourdomain.com.

Adding Module files to your Drupal Commerce.

Two files need to be added 'Airpay' and 'Airpay_response'

unzip the file and add two folder to the web/modules/contrib

Enable the two module under the Airpay

Enabling the Module

- Login to your drupal Commerce admin and go to Extend
- under Airpay two modules are there (Airpay and Airpay Response Module) enable it

Adding the Payment gateway and configuring it with your airpay merchant credential

- Login to your drupal Commerce admin and go to Commerce -> Configuration -> Payment -> Payment Gateways
- Click Add payment Gateway
- Name should be enter as 'Airpay' (Manadatory)
- check the 'Airpaym payment' plugin
- Enter the merchants credentials

Testing Airpay

- Go to your store and place an order
- If you configured airpay correctly in the previous steps , it should be appear as an option under payment methods during checkout
- When you click on checkout, it should rediredct you to Airpay's site

Checking the status of payment transaction at Airpay's end from your drupal commerce admin

- Login to admin and go to Orders you can see the order and status also changed

- In payment of that order also placed sucessfully

A. Data captured.

	Data	HTML variable name	Data Format	Data Length	Example
*	Buyer Email	buyerEmail	email format	6-50	eg.buyer@example.com
*	Buyer Phone	buyerPhone	numeric, space, hyphen	8-15	9898989989898
*	Buyer First Name	buyerFirstName	alphanumeric, space	1-50	name 89
*	Buyer Last Name	buyerLastName	alphanumeric, space	1-50	name 89
	Buyer Address	buyerAddress	alphanumeric, space and these special chars ,;.#\$()-_	4-50	
	Buyer City	buyerCity	alphanumeric, space	2-50	Delhi
	Buyer State	buyerState	alphanumeric, space	2-50	Delhi
	Buyer Country	buyerCountry	alphanumeric, space	2-50	India
	Buyer Pincode	buyerPinCode	alphanumeric	4-8	4124578
	Payment Mode	chmod	chars		ppc_pg_nb(ppc - prepaid card,pg-payment gatew ay, nb- netbanking)***
*	Amount	amount	number with two decimals	1-6.2	999999.99
